The Truth is in The Numbers

In Reference to Senate File 2:

- There are only a handful of mostly urban clinics in Iowa that offer abortions. Shifting family planning dollars to community health centers instead will give more women more health care options in more areas of the state, particularly in rural communities.
- Shifting these dollars also stops taxpayer subsidizing of abortion clinics, something many Iowans find unconscionable. Iowans should not be forced by their government to financially support businesses they find morally objectionable.

"Reallocating of funds makes sense because the medical centers can provide more comprehensive health care services to more Iowans close to home."

Planned Parenthood Locations

"More than 800 providers billed for services and medications including hospitals, medical centers, clinics, gynecologists, primary care physicians, ARNPs (Advanced Registered Nurse Practitioners), pharmacies, etc.," said DHS spokeswoman Amy McCoy.

"These providers will be able to continue to participate in the newly proposed program, at up to $3.4 million in reimbursements — so the same level of funding, so long as they do not perform abortions."

"Showdown nears on Planned Parenthood funding in Iowa Legislature" Des Moines Register, January 20, 2017.
